

Advanced Control Formulary™

The **Advanced Control Formulary™** is a guide within select therapeutic categories for clients, plan members and health care providers. **Generics should be considered the first line of prescribing.** If there is no generic available, there may be more than one brand-name medicine to treat a condition. These preferred brand-name medicines are listed to help identify products that are clinically appropriate and cost-effective. Generics listed in therapeutic categories are for representational purposes only. This is not an all-inclusive list. This list represents brand products in CAPS, branded generics in upper- and lowercase *Italics*, and generic products in lowercase *italics*.

PLAN MEMBER

Your benefit plan provides you with a prescription benefit program administered by CVS Caremark®. Ask your doctor to consider prescribing, when medically appropriate, a preferred medicine from this list. Take this list along when you or a covered family member sees a doctor.

Please note:

- Your specific prescription benefit plan design may not cover certain products or categories, regardless of their appearance in this document. Products recently approved by the U.S. Food and Drug Administration (FDA) may not be covered upon release to the market.
- Your prescription benefit plan design may alter coverage of certain products or vary copay¹ amounts based on the condition being treated.
- You will be responsible for the full cost of products that are excluded from coverage.
- For specific information regarding your prescription benefit coverage and copay¹ information, please visit Caremark.com or contact a CVS Caremark Customer Care representative.
- CVS Caremark may contact your doctor after receiving your prescription to request consideration of a drug list product or generic equivalent. This may result in your doctor prescribing, when medically appropriate, a different brand-name product or generic equivalent in place of your original prescription.
- In most instances, a brand-name drug for which a generic product becomes available will be designated as a non-preferred option upon release of the generic product to the market.

ANALGESICS

§ NSAIDs

diclofenac sodium
ibuprofen
meloxicam
*naproxen*²

§ NSAIDs, COMBINATIONS

diclofenac sodium-misoprostol

§ NSAIDs, TOPICAL

diclofenac sodium gel 1%
(except NDC[^] 69499031866)
diclofenac sodium solution

§ COX-2 INHIBITORS

celecoxib

§ GOUT

allopurinol
colchicine tablet
probenecid

§ OPIOID ANALGESICS

buprenorphine transdermal
codeine-acetaminophen
fentanyl transdermal

ANTI-INFECTIVES

ANTIBACTERIALS

§ CEPHALOSPORINS

cefдинir
cefprozil
cefuroxime axetil
cephalexin
SUPRAX

§ ERYTHROMYCINS / MACROLIDES

azithromycin
clarithromycin
clarithromycin ext-rel
erythromycins
DIFICID

§ FLUOROQUINOLONES

ciprofloxacin
levofloxacin
moxifloxacin

§ PENICILLINS

amoxicillin
amoxicillin-clavulanate
dicloxacillin
penicillin VK

§ TETRACYCLINES

doxycycline hyclate
minocycline
tetracycline

§ ANTIFUNGALS

fluconazole
itraconazole
terbinafine tablet

ANTIRETROVIRAL AGENTS

§ ANTIRETROVIRAL COMBINATIONS

abacavir-lamivudine
lamivudine-zidovudine
ATRIPLA
BIKTARVY
CIMDUO
DESCOYV
EVOTAZ
GENVOYA
ODEFSEY
PREZCOBIX
SYMFI
SYMFI LO
TEMIXYS
TRIUMEQ
TRUVADA

FUSION INHIBITORS
FUZEON

HEALTH CARE PROVIDER

Your patient is covered under a prescription benefit plan administered by CVS Caremark. As a way to help manage health care costs, authorize generic substitution whenever possible. If you believe a brand-name product is necessary, consider prescribing a brand-name on this list.

Please note:

- Generics should be considered the first line of prescribing.
- The member's prescription benefit plan design may alter coverage of certain products or vary copay¹ amounts based on the condition being treated.
- This drug list represents a summary of prescription coverage. It is not all-inclusive and does not guarantee coverage. The member's specific prescription benefit plan design may not cover certain products or categories, regardless of their appearance in this document. Products recently approved by the FDA may not be covered upon release to the market.
- The member's prescription benefit plan may have a different copay¹ for specific products on the list.
- Unless specifically indicated, drug list products will include all dosage forms.
- Log in to Caremark.com to check coverage and copay¹ information for a specific medicine.

FOR YOUR INFORMATION: Generics should be considered the first line of prescribing. This drug list represents a summary of prescription coverage. It is not all-inclusive and does not guarantee coverage. New-to-market products and new variations of products already in the marketplace will not be added to the formulary immediately. Each product will be evaluated for clinical appropriateness and cost-effectiveness. Recommended additions to the formulary will be presented to the CVS Caremark National Pharmacy and Therapeutics Committee (or other appropriate reviewing body) for review and approval. In most instances, a brand-name drug for which a generic product becomes available will be designated as a non-preferred option upon release of the generic product to the market. Specific prescription benefit plan design may not cover certain products or categories, regardless of their appearance in this document. The member's prescription benefit plan may have a different copay¹ for specific products on the list. Unless specifically indicated, drug list products will include all dosage forms. This list represents brand products in CAPS, branded generics in upper- and lowercase *Italics*, and generic products in lowercase *italics*. Generics listed in therapeutic categories are for representational purposes only. Listed products may be available generically in certain strengths or dosage forms. Dosage forms on this list will be consistent with the category and use where listed. Log in to [Caremark.com](https://www.caremark.com) to check coverage and copay¹ information for a specific medicine.

§ Generics are available in this class and should be considered the first line of prescribing.

^A Drug products are identified by unique numerical product identifiers, called National Drug Codes (NDC), which identify the manufacturer, strength, dosage form, formulation and package size.

[†] Listing does not include certain NDCs^A.

* The preferred options in this list are a broad representation within therapeutic categories of available treatment options and do not necessarily represent clinical equivalency.

¹ Copayment, copay or coinsurance means the amount a member is required to pay for a prescription in accordance with a Plan, which may be a deductible, a percentage of the prescription price, a fixed amount or other charge, with the balance, if any, paid by a Plan.

² Listing does not include *naproxen CR* or *naproxen suspension*.

³ For use in patients previously treated with an HCV regimen containing an NS5A inhibitor (for genotypes 1-6) or sofosbuvir without an NS5A inhibitor (for genotypes 1a or 3).

⁴ Listing does not include *fenofibrate tablet 120 mg*.

⁵ Listing does not include generic CARDIZEM LA.

⁶ Listing does not include *cyclobenzaprine tablet 7.5 mg*.

⁷ Listing does not include generic FORTAMET or GLUMETZA.

⁸ An ACCU-CHEK blood glucose meter may be provided at no charge by the manufacturer to those individuals currently using a meter other than ACCU-CHEK. For more information on how to obtain a blood glucose meter, call: 1-877-418-4746.

⁹ Listing does not include *fluocinonide cream 0.1%*.

¹⁰ An exception process is in place for specific clinical or regulatory circumstances that may require coverage of an excluded medication.

¹¹ BD ULTRAFINE syringes and needles are the only preferred options.

¹² ACCU-CHEK brand test strips are the only preferred options.

¹³ Listing reflects the authorized generics for TESTIM and VOGELXO.

CVS Caremark may receive rebates, discounts and service fees from pharmaceutical manufacturers for certain listed products. This document contains references to brand-name prescription drugs that are trademarks or registered trademarks of pharmaceutical manufacturers not affiliated with CVS Caremark. Listed products are for informational purposes only and are not intended to replace the clinical judgment of the prescriber. The document is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable.
