

Find healthcare costs for your dependent(s)

New functionality in your ClearCost Health Member Cost Estimator

Overview

Within your member cost estimator tool, ClearCost Health, you now have the ability to view costs of medical services for any one of your under 18 dependents!

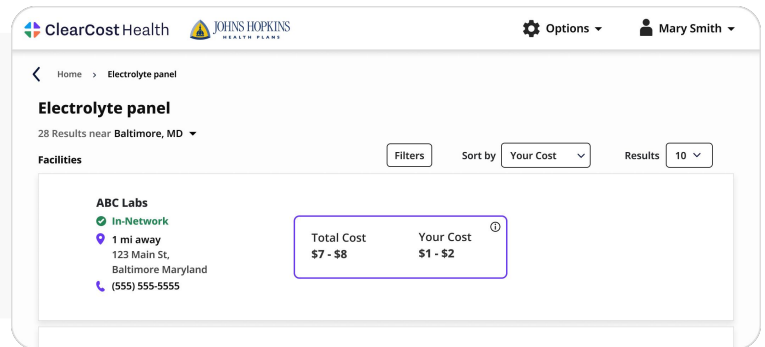

Just like searching for your own healthcare costs, this takes into account your dependent's deductible stage, out of pocket spend, and benefit structure.

How-to

1

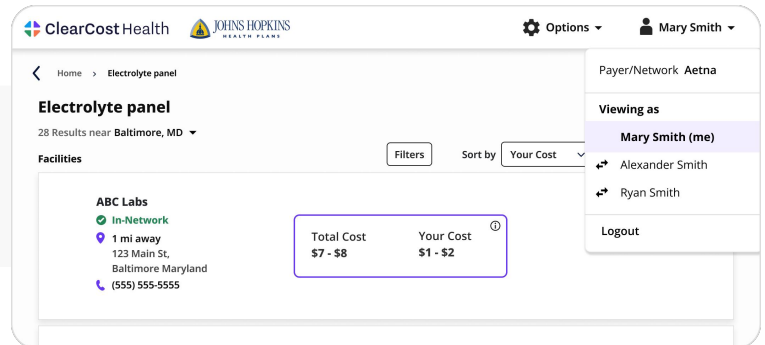

Search for a medical service to find pricing.

View pricing for yourself based on your deductible phase

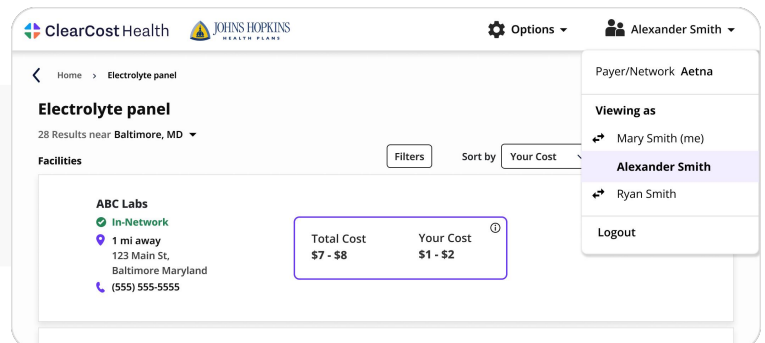

2

Select an under 18 dependent from the profile dropdown

3

View pricing for your dependent based on their deductible phase
